The Royal College of Radiologists

Radiotherapy consent form

This form should only be used if the patient is over 16 years old and has capacity to give consent. If the patient does not legally have capacity please use an appropriate alternative consent form from your hospital.

Patient details

Patient name: John Smith

Date of birth: 01/01/1970

Patient unique identifier: R1234567

Name of hospital: Kent Oncology Centre

Responsible consultant oncologist or consultant therapeutic radiographer: Dr. Sabri AHMED, Consultant Medical Oncologist (Locum) -

Special requirements: eg, transport, interpreter, assistance

Details of radiotherapy

Radiotherapy type:	
Site and side:	
Aim of treatment: (Tick as appropriate)	☐ **Curative** – to give you the best chance of being cured ☐ **Neo-adjuvant** – treatment given before surgery to shrink the tumour ☐ **Adjuvant** – treatment given after surgery to reduce the risk of cancer coming back ☐ **Disease control/palliative** – to improve your symptoms and/or help you live longer but not to cure your cancer
Concurrent systemic anti-cancer therapy: (Tick as appropriate)	☐ **Yes with** _____ ☐ **No** (A separate consent form will cover the possible side-effects of this treatment)

You may have questions before starting, during or after your radiotherapy.

Contact details are provided here for any further queries, concerns or if you would like to discuss your treatment further.

Dr. Sabri AHMED, Consultant Medical Oncologist (Locum) -

Patient name: John Smith

Patient unique identifier: R1234567

Possible early or short-term side-effects

Start during radiotherapy or shortly after completing radiotherapy and usually resolve within two to six months of finishing radiotherapy. Frequencies are approximate.

Expected 50%–100% 	
Common 10%–50% 	
Less common Less than 10% 	
Rare Less than 1% 	
Specific risks to you from your treatment	

I confirm that I have had the above side-effects explained. **Patient initials**

Patient name: John Smith

Patient unique identifier: R1234567

Possible late or long-term side-effects

May happen many months or years after radiotherapy and may be permanent. Frequencies are approximate.

Expected 50%–100%	
Common 10%–50%	
Less common Less than 10%	
Rare Less than 1%	
Specific risks to you from your treatment	

I confirm that I have had the above side-effects explained.

Statement of health professional

(to be filled in by health professional with appropriate knowledge of proposed procedure)

– I have discussed what the treatment is likely to involve, the intended aims and side-effects of this treatment.
– I have also discussed the benefits and risks of any available alternative treatments including no treatment.
– I have discussed any particular concerns of this patient.

Patient information leaflet provided: ☐ Yes / ☐ No – Details:

Copy of consent form accepted by patient: ☐ Yes / ☐ No

Signature:

Date: 11/09/2025

Name: Dr. Sabri AHMED

Job title: Consultant Medical Oncologist (Locum)

Statement of patient

– I have had the aims and possible side effects of treatment explained to me and the opportunity to discuss alternative treatment and I agree to the course of treatment described on this form.
– I understand that a guarantee cannot be given that a particular person will perform the radiotherapy. The person will, however, have appropriate expertise.
– I have been told about additional procedures which are necessary prior to treatment or may become necessary during my treatment. This may include permanent skin marks and photographs to help with treatment planning and identification.
– I agree that information collected during my treatment, including images and my health records may be used for education, audit and research. All information will be anonymised. I am aware I can withdraw consent at anytime.

Tick if relevant

☐ I confirm that there is no risk that I could be pregnant.

☐ I understand that I should not become pregnant during treatment.

Note: if there is any possibility of you being pregnant you must tell your hospital doctor/health professional before your treatment as this can cause significant harm to an unborn fetus. Testosterone and other hormone treatments are not contraception.

☐ I understand that I should not conceive a child or donate sperm or eggs during the course of my treatment and I will discuss with my oncologist when it will be safe for me to conceive a child after radiotherapy.

☐ I understand that if I were to continue to smoke it could have a significant impact on the side-effects I experience and the efficacy of my treatment.

☐ I do not have a pacemaker and/or implantable cardioverter defibrillator (ICD).

or

☐ I have a pacemaker and/or implantable cardioverter defibrillator (ICD) and I have had the risks associated with this explained to me.
